TEN CENTS PER WEEK

ST. LOUIS' BIG CELEBRATION IS COMMENCED TODAY

Hundredth Anniversary of City Being Elaborately Commemorated.

Warships, Airships and Great Men Present.

PROGRAM FOR WHOLE WEEK

St. Louis, Oct. 4. (United Press.)—With the first illustrated lecture of Dr. Frederick A. Cook, discoverer of the north pole, and flights by Glenn H. Curtiss, as leading attractions, together with a score of other unusual events, promoters of the St. Louis Centennial, celebrating the one hundredth anniversary of the founding of St. Louis, predict the biggest festival in the history of the southwest. The big show begins today.

Three United States torpedo boats, the Tingey, Thornton and Wilkes, headed by the destroyer McDougal as flagship, which will form the naval escort for President Taft on his voyage down the Mississippi, will head a water pageant Tuesday. One thousand mayors and governors, representing every state in the union, will be guests of honor.

The aeronautic festival will begin this afternoon with two balloon races, the first between small craft of 40,000 cubic feet capacity, starting at 2 o'clock, while the big contest for balloons of 80,000 feet capacity, with prizes aggregating \$1,600, will start at 4 p. m.

Ten are entered in the big distance race, including such noted pilots as Capt. John Berry, winner of the national championship race from Indianapolis; Albert Bond Lambert, H. E. Honeywell and Paul McCullough, of St. Louis; Charles Walsh, of New York, piloting the Hoosier for the Aero club of Indiana; Clifford B. Harmon, of New York; J. Holland Forbes, of New York, acting president of the Aero club of America; G. L. Bunting and Carl Fisher, of Indianapolis, and J. H. Wade, Jr., of Cleveland.

The rules of the International Aeronautic Federation, which governed the Gordon Bennett race two years ago, will obtain, and the balloon traveling the greatest distance will be the winner. Aeronauts predict that in all respects the race will surpass the former event. They also declare it more than likely that the Lahti cup record will be smashed, which means the big gas bags will be seen hundreds of miles from St. Louis.

Water Pageant.
Tuesday the water pageant will take place, with the torpedo flotilla playing a conspicuous part, while in the evening the Velled Prophets ball and street parade will be held. Dr. Cook, Curtiss and the visiting mayors and governors will be guests of honor at the ball.

Wednesday evening Dr. Cook will deliver his first illustrated lecture on the discovery of the north pole since his return to the United States, and the hour's talk will be illustrated with stereoscopic views from photographs taken in the far north. For this he will receive \$20,000. Dr. Cook will also ride at the head of the historical parade Friday morning, and will be an official judge of the aeronautic events. He will arrive in St. Louis this evening with his wife and two daughters, and will remain throughout the centennial week.

Airships.
Glenn Curtiss will make his turning up flights Wednesday afternoon and will give exhibitions Thursday, Friday and Saturday. It is possible he will compete in the heavier than air race Friday against the Farnum biplane, driven by J. H. Ormon, the machine invented by J. H. Tulley and M. Dettmar, of St. Louis, and the flyers of the two Chicagoans, E. E. Harbert and F. H. Minahan, but he will not be eligible for the prizes, his contract guaranteeing a flat sum of \$6,000.

A dirigible balloon race between Capt. Thomas Scott Baldwin, A. Roy Knabenshue, Lincoln Beachey and several lesser lights will be contested around a ten mile triangular for \$1,500 in prizes Saturday. The exhibitions of Baldwin in connection with the Hudson-Fulton celebration in New York have shown that the veteran is the same old wizard of the air as five years ago, when the success of his first dirigible driven by Knabenshue in the world's fair here brought the names of both before the public. Beachey annexed the trophies at the carnival held here two years ago when he defeated Captain Baldwin in two races.

Included in the five street parades during the week will be the largest automobile parade ever held. Owners

Hiram Smedley Declared to be of Unsound Mind by Jury This Morning and is Ordered to Hopkinsville, Ky.

All Cases Against Former County Court Clerk Continued Until January Term of Criminal Court.

Hiram Smedley is of unsound mind, according to the verdict returned this morning at 11 o'clock. Judge Reed made an order for Sheriff Ogilvie to take him to the asylum at Hopkinsville for treatment, and when his mind is restored for him to be brought back for trial. All the cases pending against him were continued until the January criminal term.

The jury received the case Saturday afternoon after the arguments had been completed, and the jurors were dismissed until this morning. Deliberations began this morning, and it was the opinion that a hung jury would result. At 10:40 o'clock Judge Reed called for the jury and told the members it was important to bring in a verdict. The foreman stated some of the jurors could not decide whether he was insane or under the influence of some drug at the present time. Judge Reed explained that the whole question was whether he was in such a condition that he was unable to advise his attorneys in the preparation of his case. Further Judge Reed explained that a vote of nine members of the jury would be sufficient for a verdict, but he preferred to have the entire jury agree.

The jury retired and in a few minutes returned with the verdict that he was of unsound mind.

No Court Tomorrow.

Circuit court will not be held tomorrow owing to the fact that the court room will be used for registration. J. M. Walton was excused as a grand juror and A. J. Wyatt was excused as a petit juror and A. H. Patton was excused to serve.

The case of Eugene Board charged with malicious striking, was reset for the second day of the January term. The trials of Nello Perkins and Ida Turner, charged with grand larceny, were set for the same day.

The malicious cutting case against Frank Green alias Rush Green, was continued until the January term. Claude and Horace English were fined \$50 for malicious striking.

The grand jury returned four indictments: Andrew Boyd, Russ Wilkerson and Ed Fowler, all charged with obtaining money by false pretenses.

Watch Is Recovered.
By an agreed order that was filed in circuit court this morning Luther Coons recovered \$20 and a gold watch that had been stolen from him by Will Wallace. The money has been a bone of contention several weeks. When Wallace was arrested he had the watch and money, and it was never tried.

At this term of circuit court Wallace was convicted, and this morning an agreed order was filed whereby the money was turned over to Hendrick & Corbett, Wallace's attorneys, who retained it, and it was restored to Coons, the owner.

was taken away by the police department. Attorneys Hendrick & Corbett were engaged to defend Wallace, and they claimed the money as a fee. Suit was instituted in Magistrate Emery's court, but the case was never tried.

Vienaa, Oct. 4.—Albert Pulitzer, brother of Joseph, owner of the Post-Dispatch, St. Louis, and the New York World, was found dead in his apartments today. He committed suicide with a revolver. Conditions show he shot himself yesterday. He was suffering from a nervous breakdown for which he was here, seeking relief. Physicians say he also took poison to make his death certain. He was 58 years old. He had lived abroad since 1895. He established the New York Morning Journal in 1882, and was editor until 1895, when his health failed. He then sold the paper and went abroad. He was born in Hungary.

HIGH OFFICERS

ILLINOIS CENTRAL MEN COMING TO PADUCAH.

Vice-President and General Manager Returning Home From New Orleans.

Paducah will be honored with a visit of I. G. Hawn, vice-president, and F. B. Harriman, general manager, of the Illinois Central railroad next Friday. The two officials will attend a meeting of stockholders of the Chicago, St. Louis & New Orleans railroad at New Orleans Thursday and will be in Paducah Friday. Mr. W. F. Paxton, of Paducah, will attend the stockholders' meeting.

Vera Cruz, Oct. 4.—Juanita Paza, attempting to cross a river at Puerto Mexico, was thrown into the water when his skiff was overturned. Four men tried to save her, but the sharks dragged her to death. Hundreds of people on shore saw the tragedy.

Miss Elsie Petter left Saturday for St. Louis to attend the Centennial and visit relatives.

BARKLEY DENIES ANY CONNECTION WITH COUNTY RING

Admits Their Official Misconduct and Says He Has Opposed it.

Hazelip Says Ring is Not Mad at Barkley.

DEBATE HELD AT REIDLAND

Among the interesting issues raised in the debate between T. N. Hazelip and Alben Barkley, Republican and Democratic candidates, respectively, for county judge, at Reidland Saturday night, were the settlement with the bonding company made by Mr. Barkley for Hiram Smedley's alleged shortages; the Perkins' creek contract, and the overdraw of funds by the fiscal court. Mr. Barkley

threw overboard other members of the present Democratic county administration, in defending himself, and declared he is not responsible for them.

Mr. Hazelip charged that in making a settlement with the bonding company for Smedley's shortages, Mr. Barkley had estopped the county from collecting the full amount of the shortage, and that the suit filed against the company is but a bit of political play and the suit will not be put to issue until after the election and then it will be thrown out of court. He said the contract with the Vincennes Bridge company for the Perkins' creek and Clark's river was never tried.

bridges does not call for maintenance for any definite time, and a workman said one of the bridges would not stand two years. To the first charge Mr. Barkley made no answer; to the second he said he is not an expert bridge builder and to the third he replied that he, too, might have to say some uncomplimentary things about his fellow Democratic office holders. Hazelip took advantage of this admission, and showed that Mr. Barkley is part of the administration, he kept other candidates waiting while he decided whether he would prefer to represent the people as commonwealth's attorney or county judge, and that he is beholden to the same machine that elected him before and nominated him again and all his colleagues, and that he would be as powerless to do any good as county judge as he is as county attorney, since he admits that he knows things are not as they should be.

DRAUGHON'S Business College
(Incorporated)
More Kentucky BANKERS endorse DRAUGHON'S than endorse all other business colleges COMBINED.
POSITIONS. Draughon gives contracts, backed by a chain of 30 colleges, \$100,000.00 capital, and 21 years' success, to secure POSITIONS under reasonable conditions of REFUNDATION.
BOOKKEEPING. Draughon's competitors, by not accepting his proposition to have his THREE-months' bookkeeping students contest with their SIX-months' bookkeeping students, in effect concede that DRAUGHON'S is THE BEST.

YOU WHO SPEND TWICE FOR FUEL WHAT YOU SHOULD

Don't blame the hard winters! Don't complain about the coal trust! Get right down to the subject—your heater is a coal hog. It is a fuel waster.
The chimney gets the heat instead of the room.
We'll save you a third or half your fuel bill this season if you will listen to reason. If it was \$40 last winter, how would \$15 sound for this year?
We can save you that money with the stove we sell.
That stove is the Original Cole's Hot Blast—the heating wonder.
Remember we guarantee to save a third the fuel—proper use will save at least half. And just atop to think—the amount saved in fuel will pay the cost of the stove—the stove saves its cost and over. Will we guarantee this? We will—and more.
See what the makers—the Cole Manufacturing Co., of Chicago—have written us. Pretty strong from million dollar concern selling 60,000 of this one stove a year—Isn't it? Read it:
"You are authorized to sell the Original Cole's Hot Blast Heater this year on the most rigid guarantee ever made by any stove manufacturer. Our guarantee to every customer of yours is:
"1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
"2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with the same size fire pot.
"3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.
"4—That the stove will hold fire with soft coal from Saturday night until Monday morning.
"5—A uniform heat day and night with soft coal, hard coal or lignite.
"6—That every stove will remain absolutely air-tight as long as used.
"7—That the feed-door is and will remain smoke and dust proof.
"All we ask is that the stove shall be operated according to directions and set up with a good fire."
(Signed) COLE MANUFACTURING CO.
(Makers of the Original Patented Hot Blast Stove.)

Cole's Hot Blast, \$10 and up

The unequalled fuel saving, the heat radiation, the even temperature, the holding of fire, are all the result of the patented features in the construction of this remarkable stove, which cannot be used in making any other stove; and to the Patented Hot Blast Draft, which burns the wasteful passages in the fuel. Soft coal, as you know, is half gas. The make-up of the stove is interesting. Read:

In an ordinary stove the gas (half the heat value) arises from the coal as the coal burns and the gas goes right on up the chimney. The Hot Blast draft on top of the fire burns the coal from the top—burns the gas. Makes the coal last twice as long.

Note this—you cannot shut off or control ordinary stoves promptly because, though you do shut the fire out of the main draft, air is coming in through dozens of small cracks, giving the fire a draft which is in no way controlled. You notice this when a stove keeps on heating long after you want to shut it off.

The patented construction of the Original Hot Blast Stove enables the manufacturer to guarantee it to remain always air tight. Remember, that is part of the guarantee. So when you close the air feed you seal the stove up air tight. Thus the coal doesn't waste away—and will to kindle a fire in the morning, so hold fire so well that you don't have to add other stoves, but actually draw and eat breakfast in warm rooms, warmed by the fuel put in the night before. Lots of satisfaction, isn't it? Cleanliness—economy and a stove with looks to be proud of.

The Original Hot Blast is not a high-priced ornament, but is built for utility and heating comfort. IT IS SOLD AT \$10.00 AND UP. And there is no way in which the material used in a stove could be put together to get so much heat, wear and good looks as in this.

Let us show you Cole's Hot Blast early so you will have a full season of comfort, and begin fuel saving at once. Why not come tomorrow?

F. N. GARDNER, JR. CO.

See the name "COLE'S" on the feed door of every stove. None genuine without it.
Remember, we are the only dealers here selling Cole's Original Hot Blast—the name COLE'S on the feed door.

Nervous Woman Stopped Coffee and Quit Other Things.

No better practical proof that coffee is a drug can be required than to note how the nerves become unstrung in persons who habitually drink it.

The stomach, too, rebels at being continually drugged with coffee and tea—they both contain the drug—caffeine. Ask your doctor. An In. woman tells the old story thus:

"I had used coffee for six years and was troubled with headaches, nervousness and dizziness. In the morning upon rising I used to belch up a sour fluid, regularly. 'Oftentimes I got so nervous and miserable I would cry without the least reason, and I noticed my eyesight was getting poor."

"After using Postum a while I observed the headaches left me and soon the belching stopped (water brush from dyspepsia). I feel decidedly different now, and I am convinced that it is because I stopped coffee and began to use Postum. I can see better now, my eyes are stronger."

"A friend of mine did not like Postum but when I told her to make it according to directions on the package, she liked it all right." Always hot Postum well and it will surprise you.

Daily Thought.
Set your mind on the things that
are above, not on the things that
are on the earth.—The Apostle Paul.

THE MAN WHO DELAYS.
Every Democratic voter should
register tomorrow in his precinct.
The precinct boundaries and the
registration places are designated
elsewhere in The Evening Sun today.

Every Republican should register
tomorrow.

Every Socialist should register to-
morrow.

Every man, who recognizes no
party affiliation, should register to-
morrow.

Every man, who feels it a duty to
his party, should register early to-
morrow, in order that his name may
be scratched off the poll book and
the workers may concentrate their
attention on genuine delinquents.
The workers will have you on their
minds until you vote, and delay on
your part interferes with the effi-
ciency of the party organization.

The man who feels it his duty as a
citizen should register early; because
he does not know what circumstance
may arise late in the day to prevent
his registering and thus qualifying
to vote, or compel him to register at
a great personal sacrifice.

The registration places will be
opened at six o'clock in the morning
and will remain open until nine at
night.

THE ISSUE MADE UP AT REID- LAND.

Issues of the county campaign were
clearly defined in the debate between
T. N. Hazelp and Alben Barkley,
Republican and Democratic candi-
dates, respectively, for county judge,
at Reidland, Saturday night. We
mention Mr. Hazelp's name first be-
cause the case at hand might be styled
the "Republican party, by T. N.
Hazelp, vs. Alben Barkley, et al."—
the others being the "Democratic
county administration," of which Mr.
Barkley is a member.

Mr. Hazelp based his plea and
argument on the records of theft,
misconduct, irregularities, illegal ap-
propriations and waste of county
funds. Mr. Barkley sprung a sur-
prise, probably on Mr. Hazelp, as
well as others, by interposing a plea
by way of confession and avoidance.
He admitted theft, gross irregulari-
ties, illegal dealings with the county
and loose methods on the part of his
colleagues at the McCracken county
court house, but declared his own
hands are clean, and recited a long
list of his official acts to show that he
not only knew of the misconduct of
his colleagues, but actually had re-
monstrated with them and used more
extreme means where necessary to
put a stop to their misconduct.

Besides this declaration to assume
any responsibility for the lapse of
the whole administration, Mr. Bark-
ley is forced to meet two specific
charges against himself. In reference
to his ignorance of the alleged pecu-
lations of Hiram Smedley, Mr. Bark-
ley said: "The report of Professor

Smith shows plainly that no one but
an expert could have discovered it,"
wherein, we fear, Mr. Barkley nods;
for Professor Smith was not engaged
to inspect the books until Will Hus-
bands, state revenue agent, exposed
the shortage and Smedley was in-
dicted. Another charge, that he set-
tled Smedley's shortages with the
bonding company for less than the
full amount, was not answered by
Mr. Barkley. He may, however,
fully and satisfactorily answer these
charges during the campaign.

Aside from these questions as to
Mr. Barkley's own conduct of office,
which are pertinent to the issue; the
situation is about this, involving all
the Democratic candidates for county
office in the issues:

It is affirmed by Mr. Hazelp and
admitted by Mr. Barkley that theft,
graft, gross irregularities in the ap-
propriation of county funds, illegal
dealings with the county, loose meth-
ods of keeping records and incompe-
tence have marked the administra-
tion generally at the McCracken
court house. Mr. Hazelp asserts that
the administration is and has been
always been Democratic, and Mr.
Barkley admits that. Mr. Barkley
denies that he has had part in the
misconduct; but declares he has been
cognizant of the misconduct and
has protested against it, and done
everything he could to protect the
taxpayers. That he has failed to
entirely protect them is shown by the
Smedley shortages and expenditures of
many thousands, which cannot be
clearly accounted for. All the Demo-
cratic candidates are involved in the
issue to this extent: were they nomi-
nated by the court house ring, and
would it be better to elect them, or
make a complete political change at
the court house?

In their own contest, Mr. Hazelp
and Mr. Barkley are making their
pleas on practically the same ground.
Mr. Hazelp says the whole county
administration is corrupt and the
ring is in control. County Attorney
Barkley says that because he has
been opposed to crookedness he
should be rewarded by being pro-
moted to a higher office.

Mr. Barkley thus has cleverly es-
caped the necessity of defending an
indefensible position; but Mr. Hazelp
has turned his flank and put him
on the defensive again, by making
the point that in spite of Mr. Bark-
ley's asserted opposition to the
irregularities of his colleagues, that
opposition was not bitter enough to
cost him their friendship; for he was
nominated for county judge without
opposition, after he had spent weeks
deciding whether he would rather be
judge or commonwealth's attorney.

Mr. Hazelp suggested that if Mr.
Barkley had really earnestly opposed
official crookedness at the court
house, he would have incurred the
animosity of those he accused and
they, at least, would have opposed
his nomination with a candidate.
Hazelp insisted that Mr. Barkley's
political affiliations speak more clearly
than do his denunciations of his
affiliates on the stump in the exigen-
cies of a political campaign.

Both speakers were courteous in
their debate, and, while vehemence
may be expected in the heat of it, it
is hoped they will find it possible to
conduct as clean a campaign through-
out the county, as they started at
Reidland; for the issues raised there
are the issues on which the voters
should decide the contest; whether
admitting misconduct at the court
house, Mr. Barkley has proven by his
course in office that he is the man to
straighten up affairs, or whether Mr.
Barkley's political affiliations are
such that a complete change is ad-
visable. Both candidates are young
men of good personal character as
far as we know, and the issues are
well made up.

With six wagon loads of supplies
and tents and a pack of dogs num-
bering over 100 Mr. George Robert-
son, of Paducah, the well known
sportsman and several companions
will "wagon in" the wilds of Arkan-
sas for 30 miles about November 3
for marsh, Ark., to spend five weeks
hunting for game. Bear will be
the principal prey and Mr. Robert-
son hopes to return home well sup-
plied with bear venison.

He will leave Paducah the last of
this month and probably will be ac-
companied by several friends. A
pack of 60 dogs were shipped to
Marsh three weeks ago and more
dogs are being added. From here he
goes to Memphis, thence to Helena
and then to Marsh where wagons
will be taken. It will be necessary
to cut roads through the woods
where game is plentiful. At Marsh
he will be joined by more hunters.
The party will return just before
Christmas.

River and Weather.

Heavy fog every morning have
much to do with the fall of the river,
the evaporation in the fall of the
year being enormous. The river fell
four-tenths since Saturday morning,
registering four feet on the govern-
ment gauge this morning. Weather
clear, business fair.

The City of Saltillo is due out of
the Tennessee river this afternoon
on her way to St. Louis. Her cabin
is crowded with round trip tourists,
and many will leave from here to
attend the centennial week festivi-
ties in St. Louis.

Steamboat Inspectors Green and

Tennessee company's towboats.

Capt. E. A. Awtail, with the Cutaway
III, brought a log raft from Smith-
land here today for the Langstaff
Orin Manufacturing company.

The little steamer Liberty has
been moved up in the Tennessee
river from the foot of Broadway.

With a big trip, the Clyde will ar-
rive from Waterloo, Ala., this after-
noon and proceed on to Jopka, Mo.
Metropolis to unload. She returns
to the Tennessee Wednesday eve-
ning at 6 o'clock.

The ferryboat Bettie Owen is do-

The Shreveport business men who
are interested in the Lake-to-the-

be held in New Orleans next month,
have planned a novel trip, says the
New Orleans Daily States. They will
charter a train of six coaches from
the L. R. and N. company and pro-
ceed by rail from Shreveport to the
Mississippi river at Angola, La. At
that point a special train, carrying a
dining car, will be placed on harge
and they will float down the river
making a part of the flotilla which
will accompany President Taft to the
city. Very novel, indeed, but it is
sincerely hoped that our Shreveport
friends will arrive here at least be-
fore the final adjournment of the

AT THE CHURCHES

Revival Services.
The services at the Third Street
Methodist church yesterday were as
usual of the highest order and the
preaching of the Rev. J. J. Smith
was interesting to the congregation.

Six Additions.

There were six additions to Ken-
tucky Avenue Presbyterian church
yesterday and splendid services were
held. The sessions of the church will
meet tonight to plan for the re-organi-
zation of the church. The Prince-
ton Presbytery will meet at Mayfield
Tuesday night and Mr. John G.
Miller will represent the Kentucky
avenue church. Several of the ladies
of the church will also attend the
ladies' Missionary meeting that will
be held in conjunction with the pre-
sbytery. Mr. Pearson Lockwood, who
filled the pulpit during the summer,
was here yesterday and returned to
his home before attending the pre-
sbytery. The Ladies' Aid society met
his afternoon at the home of Mrs.
Stroming, 2222 Jefferson street.

Two Additions.

Well attended services were held
at the Tenth Street Christian church
yesterday and two additions to the
church were received. Rally day
was also appropriately celebrated.
The Ladies' Aid society will hold a
social at the home of Mrs. Darnell,
on South Seventh street, Friday eve-
ning at 8 o'clock.

Rally Day.

Rally day at the German Evan-
gelical church was observed yester-
day and the Rev. C. E. Jackson de-
livered an address to the Sunday
school that was interesting and in-
structive. The Willing Workers so-
ciety of this church will meet with
Mrs. Louis Kolb, 411 South Fifth
street, this week instead of next
week as planned to make arrange-
ments for the dinner that is to be
held at Rhodes-Burford's October 12.

German Lutheran.

Splendid services were held at
German Lutheran church yesterday
and the communion service was well
attended. The Ladies' Aid society
will meet Wednesday afternoon with
Mrs. Henry Kampeffer, Third and
Adams streets.

Three Baptized.

There were three baptisms at the
First Baptist church yesterday and
on morning and evening services.

DECLINE IN USE OF MEDICINES.

The press dispatches this week con-
tained a report of an eminent au-
thority stating that in the past fifteen
years the average cost per patient
of medicines used in the hospitals of
his country has gone down from
\$2.90 to 91 cents, thus testifying elo-
quently to the fact that the use of
drugs is growing less and less with
each year, and new methods of treat-
ment are coming into popularity.

The Causes of Disease.
Mechanical disturbances of the
architectural perfection of the
human machine often cause interfe-
rence with the blood stream and
from various regions of the body.
They further cause irritation to nerv-
ous elements, cross-crossing in every
conceivable manner in the body. This
interference with the blood stream
and the nerve processes causes phys-
iological inharmonies in the tissues
and organs of the body as a unit, causing
not only organic disturbances, but
also the life out of the cells of tis-
sues and organs, reducing their re-
sistance power, and we have now a
vulnerable condition for bacterial in-
fection.

Here, then, we see the real dis-
tinctive difference, held to be the
first cause for diseased conditions be-
tween the osteopathic and medi-
cal schools. The Osteopath finds the
first cause for disease to be mechan-
ically disturbed architectural per-
fection of the human machine. The
medical practitioner finds the first
cause to be due to chemical altera-
tion of the cell structure, and treats
for a sympathetic standpoint.

pathy write or telephone to Dr. Gil-
bert's Osteopathic Infirmary, 642

were well attended. The Ladies'
Missionary society will prepare its
box for the frontier mission this
week. The Baptist City Sunday
School union meets Friday evening
at the East Baptist church.

Second Baptist.

Splendid services were held at the
Second Baptist church yesterday and
good attendance was reported at
both services.

Revival.

The revival at the North Twelfth
Street Baptist church continues to
attract large crowds and last night
there were 12 conversions. The re-
vival will continue through all next
week.

At Broadway.

Rally day services were held at the
Broadway Methodist church yester-
day and the services were well at-
tended. Four new members were re-
ceived. The choir was assisted in
the music by the Misses Burrows and
their renditions were perfect.

Tomorrow at 10 a. m. the Pastors'
association will meet at the Broad-
way Methodist church. The Rev. M.
E. Dodd, pastor of the First Baptist
church, will preach on "The Pastor
and His Mission."

Fountain Avenue.

The usual good services were held
at the Fountain Avenue Methodist
church yesterday and there were two
accessions to the church. The Rev.
G. W. Banks, the pastor, is organiz-
ing a Young Ladies' society.

The Christian's Voice.

There are, it may be, so many
kinds of voices in the world, and
none of them is without signifi-
cance." 1 Cor. xiv, 10.

On this text the Rev. W. B. Lind-
say, of Lawrenceburg, preached a
beautiful sermon at the First Presby-
terian church yesterday morning. He
read the chapter and called attention
to the fact that St. Paul mentioned
three musical instruments, the pipe,
standing for sweetness; the harp,
standing for strength; and the
trumpet, standing for strength. He
said the voice of the Christian in the
world should have these three quali-
ties. At night he preached on the
"Pre-eminent Christ." The choir sang
delightfully at both services.

Going to the Centennial.

The centennial convention of the
Christian churches of the United
States will convene at Pittsburgh,
Pa., next Monday, October 11. It
will last several days and representa-
tives from nearly every Christian
church will be in attendance. The
Rev. C. E. Jackson, pastor of the
Tenth Street Christian church, of Pa-
ducah, will leave next Sunday to at-
tend and others may make the trip.
Noted home and foreign mission-
aries will speak at the convention.

About Feet.

Anthropologists assert that the
Frenchman's foot is long, narrow and
well proportioned. The Scotman's
foot, according to these authorities,
is high and thick, strong, muscular
and capable of hard work. The Rus-
sian's foot possesses one peculiarity
the toes being generally webbed to
the first joint.

The Tartar's foot is short and
heavy, the foot of a certain type of
savage, and the toes are the same
length. The Spaniard's foot is gen-
erally small, but finely curved. The
Englishman's foot is in most cases
short and rather fleshy, and not as a
rule as strong, proportionately, as it
should be.—London Globe.

CROWDS GROW LARGER JUST AS THE HEALTH TEACHER PREDICTED

Again All Are Requested, Who Possibly Can, to Call on
Him at Once to Avoid the Later Crush. A Word
to the Wise is Sufficient.

From 9 o'clock Saturday morning
until 5 o'clock in the evening,
Fisher was indeed a busy man at
McPherson's drug store, corner
Fourth and Broadway. He has been
read and talked about so much that
there was great anxiety to meet him.

Strangely to say, many people left
the drug store disappointed because
Fisher would not supply them with
his Quaker remedies. But there is a
reason for this. Fisher is proud
of the reputation already established
for himself and the Quaker reme-
dies. He wishes to prove that these
remedies cure certain but not all
complaints, and therefore it is when
some people explain their ailments,
he refuses to sell them the remedies,
because he knows they will be of no
benefit. The caller he desires most
particularly are sufferers of rheuma-
tism, catarrh, constipation, kidney,
liver, stomach or blood troubles.
Such complaints will vanish with the
use of Quaker, and if they don't the
price of the remedies will be re-
funded. This is a fair, open, honest
offer, and would never be allowed
to be made through the firm of Mc-
Pherson's unless it was carried out.

MANAGEMENT OF THE CLASS ROOM

Superintendent Carnegie in a communication says:
It is my purpose each month to present to the teachers an outline of the topics to be discussed at the next meeting. In this way I hope we shall be able to localize our efforts upon those things that are essential to a proper understanding of the subjects presented by Hagley.
Use any books you may have of your own, and, by all means, make use of the Carnegie Library's sources of information. Special note:
"The Basic Law of Education."
"Focalization of consciousness upon the process to be automatized, plus attentive repetition of this process, permitting no exceptions until automatism results."
"Consider the lives of the field, how they grow." Sermon on the Mount. "For he taught them as one having authority." Bible. Refer to your Bible for pedagogical truth. See especially the gospels—Christ's words. His illustrations—He chose those things near at hand to make plain the way of life and living. The lives of the field; the sower in the grain field; the simple fisherfolk on Galilee's shores; the housewife sweeping the floor; the shepherd seeking his lost sheep on the hills of Judea; the water-jar at Samaria's well. These, and all his life, his words, his deeds, show the strength, the grasp, the infiniteness of the Teacher of teachers. The One who spoke as mere men never spoke, who lived as mere men never lived, who taught as mere men never taught, and yet, while we can not hope to do and live and teach as He did, yet the nearer we come to His method of teaching, the better teachers we are. Again I say, read and study Christ's pedagogy.

IN SOCIAL CIRCLES

Christian Science Lecture.
Mrs. Livingston Mills, of Atlanta, Ga., delivered an interesting address Sunday afternoon at the Kentucky theater on Christian Science. Mrs. Mills is a charming and intellectual woman, and a speaker of great magnetism. Judge William Marboe introduced her to the audience. Mrs. Mills declared that Scientists hold to the true teachings of Christ, and she must get around to Christ's vision of perfect man, and deny the physical or visible evidence in order to realize true faith.

Approaching October Wedding.
First reading of the bans of the approaching marriage of Miss Margaret C. Donigan, of this city, and Mr. George H. McKinney, of Evansville, Ind., was made yesterday morning at the St. Francis de Sales Catholic church. The wedding will be solemnized on October 20 at 9 o'clock a. m. and will be a nuptial high mass. The Reverend Father George M. Connors will perform the ceremony.

Miss Donigan is the attractive daughter of Mr. and Mrs. Owen Donigan, 517 North Eighth street. She is an unusually pretty girl of the blonde type of beauty and is possessed of many winning and lovable characteristics that have endeared her to a large circle of friends. Mr. McKinney is traveling engineer for the Illinois Central out of Evansville and is a popular young man.

The couple will make their home in Evansville.

South Carolina Bride Known Here.
Invitations have been received in Paducah announcing the wedding of Miss Olive Latimer, of Benton, S. C., to Mr. James Patten, of Boston, Mass., October 12. Miss Latimer is a daughter of the late United States Senator Latimer, of South Carolina, and is a sister-in-law of Mrs. W. C. Latimer, of Atlanta, Ga., formerly Miss Frances Wallace, of this city. The couple will be in Washington, D. C., for the winter.

Pittsburgh Wedding of Interest Here.

RUNYAN'S SLANTS TRICK LA CENTER

BALLARD COUNTY LADS CAN'T GET ONTO HIS CURVES.

Wellies Beat Visitors Eight to Two In Sunday Afternoon Game.

THIRD OF THEIR SERIES

LaCenter was dowed yesterday afternoon by the Wellies at League park by a score of 8 to 2. All through the game the Ballard county lads were without a hope of victory for Runyan was in the box for the Wellies, and his slants were poison to LaCenter. Wand started the game for LaCenter, but his mysterious waving went for nothing as he was hated from the box.

It was the third game of a series of three, and in the opening innings both teams were fighting hard, but the Wellies soon began the run getting and were never overcome. Harry Mercer was behind the bat for the Wellies, and his playing was a feature. He snuffed out runners on the sacks many times. Runyan's twirling was the bright feature and he fanned fourteen of the opposing batters.

The score was:
R H E
Wellies 8 11 1
LaCenter 2 4 3
The Wellies lined up: H. Mercer, C. Runyan, P. Evans, 1b; Johnson, 2b; Mount, 3b; Merritt, ss; Griffith, lf; Haanera, cf; C. Fuller, rf. H. Mercer, umpire.

Nervous Collapse

"I have traveled for thirty years continually. I lost a great deal of sleep, which together with constant worry left me in such a nervous state that finally, after having two collapses of nervous prostration, I was obliged to give up traveling altogether. I doctored continually but with no relief. Dr. Miles' Nervine came to my rescue—I cannot describe the suffering which this Nervine saved me. Whenever I am particularly nervous a few doses relieve me."

A. C. C. LIBBY, Wells, Me.
There are many nervous wrecks. There is nervous prostration of the stomach, of the bowels, and other organs. The brain, the kidneys, the liver, the nerve centers are all exhausted. There is but one thing to do—build up the nervous system by the use of Dr. Miles' Restorative Nervine. Its strengthening influence upon the nervous system restores normal action to the organs, and when they all work in harmony, health is assured. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

BARKLEY DENIES

(Continued from Page One.)

to state the issues of this campaign fairly, and to be fair with everybody. The time has come when the people shall vote for a "yellow dog" but now they vote for the man. We are not running on any platform adopted by any state or national convention. We are dealing with cold facts, dealing with corruption in McCracken county and dealing with the getting rid of this gang that has been running this county.

"Gentlemen, I will show the voters that their money has been misappropriated and has been stolen by the politicians. Both great leaders of politics in this county have said that it is better to vote for the man rather than for the party. Bryan in his book 'The First Battle,' has an account of jumping party lines when a better man was running on another ticket. President Taft, right in Cincinnati, his home city, said the politicians should not adhere to party lines when it was necessary to vote against George Cox and his machine."

"It is true to any fair man who has studied politics that any party kept in power will become corrupt. The study of self-interest becomes first and the people are neglected. In this county you have never had a Republican administration. Democrats have been in power since the county was organized and today a machine has been built up and a Chinese wall erected around the court house which only the members of the gang can scale and within an automatic machine grinds out candidates to

fill the occasion. My opponent was nominated without opposition and was identical with the crowd that has control of the powers that be. Uncle Joe Barker was walking the streets of Paducah before the primary and wanted to run for county judge; but he said that Barker had not decided what job he would take whether county judge or commonwealth's attorney, and that he would not decide which office he would take until after the national convention as he might be nominated as a dark horse for the vice presidency.

"What reform do you expect to get if the present nominee for county judge is put into power? Mr. Barkerley has been county attorney for four years and yet after Professor Smith has made his report neither he nor Judge R. T. Lightfoot have to this good day proposed a new system by which the funds of the county may be protected. Why is it that after they find out a man can steal for twelve and one-half years, nothing has been done? You had irregularities in the county clerk's office and the sheriff's office before the last election and that was notice to him that every man was not honest."

"Nearly one year ago Will Husbands, state auditor's agent, learned of irregularities in the county clerk's office and an investigation was promised. Last January Mr. Husbands got hold of the facts and went before the grand jury and secured indictments. After the indictments were issued Smedley walked the streets of Paducah for four months, went off to French Lick springs before the bench warrant was issued. After Mr. Husbands fled suit to get the money due the county on delinquent taxes the present administration headed by Mr. Barkerley set about to take the settlement out of the hands of Husbands."

Smedley Settlement.
Pursing a few minutes Mr. Hazell read the minutes of the meeting of the fiscal court held February 9 when Judge Lightfoot, A. W. Barkerley and G. R. Broadfoot were appointed a committee to make a full settlement with Smedley's bondsmen. On February 18 he read the minutes where \$1,565.78 was shown due and then Smedley was allowed his fee of five per cent for making the collection and the county received \$1,582.50 as a settlement.

"Mr. Barkerley, I want you to tell these people how much commission you took off and how much was turned over to the county. Then if a rate of 50 cents on the \$100 the amount now due the state is \$2,000. Then the county rate was from 16 cents to 25 cents on the \$100 greater on account of the sink-in fund, and I figure that the indebtedness to the county was at least \$300 more, making a total of \$3,300 in round numbers. The law provides a penalty of ten per cent in a short time of the character, which would amount to \$600, making a total of \$3,900. The law also provides that the delinquent shall pay interest at the rate of 10 per cent upon each delinquency. I would figure averaging the amounts for one year and six months of \$150 more, making in round numbers over \$4,000 which could have been collected and turned over to the county and upon which the revenue agent would have been allowed a penalty of 20 per cent on the whole amount."

"If Judge Lightfoot, Mr. Barkerley and Magistrate Broadfoot had investigated the county would have received \$4,000. But they were anxious to get the Smedley matter closed up. That receipt is a complete surrender by the county officials, and although the report shows that Smedley stole \$16,000 and he had a bond good for every cent, the county will never collect another cent. That suit filed recently will be thrown out of court. Of course, something had to be done and Mr. Barkerley filed the suit to appease public opinion, but some of the best lawyers in the city say that the receipt covers everything."

County Finances.
"The condition of the county's finances are such that we do not wonder the officials were in such a hurry to get it closed up, for it is deplorable with a bonded indebtedness of \$450,000 and July 1 in default of \$7,921.26 in the pauper fund. In 1907 the total taxes with accrued interest allowed for this fund, which rate was the same as this year, eight cents on the \$100, there was paid into this fund \$12,522.35, thus showing a little over \$1,600 as balance after the deficit is paid with which to defray the expenses of the pauper fund until the next taxes are collected upon this year's levy. W. A. Thompson has presented an average bill of \$222 for many months for the county sanitarium in addition to a bill of \$10 a month for a committee-man, making a grand total of \$4,000 a year for running the county sanitarium alone. With all other bills of the pauper fund to be paid and without any funds with which to meet them."

"Paid out of the county levy Kentucky statute No. 126 of the fund July 1, 1909, was \$29,826.21, while in 1908 the amount paid into this fund was \$31,018.42, leaving about \$2,000 to defray the expenses of this fund until taxes from this year's levy come in. The road and bridge fund had a deficit July 1 of \$11,255.83 and an appropriation for the Clark's river and Perkins' creek bridges of \$20,200, making a grand total of \$21,555.85, which shows the fund is overdrawn. The taxes and interest paid into the fund in 1908 was \$31,468.11. Making this statement upon last year's taxes the fund is already overdrawn over \$100 with nothing left to build roads, repair bridges until taxes come in from this year's levy."

As to the duties of the county officers Mr. Hazell read from section

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though a new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Fom, 1038 Lansdowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and today is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial. If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

5907 of the Kentucky statutes: "Expenditures regulated and limited.—Neither the fiscal court of any county nor common or general council nor board of trustees of any town expend any money in excess of the amount annually levied, collected or appropriated for any special purpose and the fiscal court of any county, common or general council of any city and board of trustees of any town shall not expend for suffer, permit or authorize to be expended any money for or tax levied and collected for one purpose than specified in the order, resolution or ordinance under which the same is levied, imposed or collected."

"Section 5909 of the Kentucky statutes provides a penalty for any member of the fiscal court for any county who shall knowingly vote for any appropriation of money for making any contract in violation of this act and further provides that he shall be fined upon conviction not less than \$100 and not more than \$500 or imprisoned in the county jail not less than one month and not more than twelve months or both fined and imprisoned."

"Mr. Barkerley, you knew or could have known by due diligence, that these funds were overdrawn, and you ought to have known the law for being prosecutor of this county you should have enforced the law. You should enforce the law, as you are still in office."

Bert Johnson and Bridges.
"I say if you go by the law and comply with the law you can not repair a road or build a bridge, for if they stole \$16,000 and he had a bond good for every cent, the county will never collect another cent. That suit filed recently will be thrown out of court. Of course, something had to be done and Mr. Barkerley filed the suit to appease public opinion, but some of the best lawyers in the city say that the receipt covers everything."

"If Judge Lightfoot, Mr. Barkerley and Magistrate Broadfoot had investigated the county would have received \$4,000. But they were anxious to get the Smedley matter closed up. That suit filed recently will be thrown out of court. Of course, something had to be done and Mr. Barkerley filed the suit to appease public opinion, but some of the best lawyers in the city say that the receipt covers everything."

"Why, it is a fact that prisoners are tried in the city police court and held over to the circuit court on misdemeanor charges. They are unable to give bond, and are placed in the county jail. Although the statute requires the jailer to bring the prisoners before the county judge immediately for a trial, they are allowed to remain in the county jail for months, until the meeting of circuit court, when they are given a trial by a jury, and then maybe sent back to jail to remain for six to twelve months. All the while the county jailer is drawing 50 cents a day for each prisoner. Mr. Barkerley is present in police court and is aware of this neglect of duty."

Reading from section 126 of the Kentucky statutes Mr. Hazell told the audience of the duty of the county attorney to attend every meeting of the fiscal court and oppose the allowance of all claims not filed legally.

"Gentlemen, there is one subject I want to give a history of because it is of so much interest to the people of this vicinity, and that is of the election of the bridge over Clark's river. If I am not misinformed the present bridge over Clark's river has been condemned for nine years. A few months ago bids were opened, after Bert Johnson and a few others had made their junket through the east and visited Washington, Philadelphia, Niagara Falls and Chicago (And we paid the bill, somebody remarked). Shortly after Bert returned John Thompson was elected

road supervisor and after Johnson had received some information he became a competitive bidder for the two jobs. He did not bid quite low enough and the contract was awarded to the Vincennes Bridge company. It is unknown who drew the plans, but Bert had a blue print, for which he asked the county \$1,000 and received \$150. The contract for the bridge was drawn by Mr. Barkerley and after the work is accepted there is nothing to guarantee that the bridge will stand one day. One of the foremen has been heard to say that if the bridge is accepted it will not last two years.

"Gentlemen, I want you to listen to the reading of this contract and see if there is anything to guarantee the bridge after it is accepted:

"This agreement made this fourth day of May, 1909, by and between the Vincennes Bridge company, of Vincennes, Ind., party of the first part, and the fiscal court of McCracken county, of the second part; witnesseth that the party of the first part for the consideration hereinafter mentioned agrees to furnish all materials and build and construct for said party of the second part two bridges as follows: One to consist of a 420 foot bridge over Clark's river on the Benton gravel road, and one to consist of a 90 foot bridge over Perkins' creek on the Cedar gravel road. The contractor shall give bond in the sum of \$70,000, with good and sufficient surety for the faithful compliance of this contract and have the same completed on or before the first day of October, 1909. Said work shall be done in accordance with the plans and specifications hereto attached, which are hereby made a part of this contract. In consideration of the foregoing material to be furnished and the work executed by said party of the first part said party of the second part hereby agrees to pay said party of the first part the sum of \$20,300 in the following manner, to wit: In monthly installments of not to exceed \$800 per cent during the progress of the work upon estimates furnished by the road supervisor, the balance upon the completion and acceptance of the bridges, payable at the office of the said company in Vincennes, Ind. And for the performance of all and every article and agreement above mentioned the parties hereto do hereby hand themselves and successors or agent of each to the other by these presents. It is further agreed by and between the parties hereto that should the weather or condition of said streams be such as to prevent the completion of said work within time above specified or should the same be delayed by failure of a railroad to transport any portion thereof within said time or from strikes or any other cause or causes beyond the control of said party of the first part that the time for the fulfillment of this contract shall be extended for a period not less than that caused by delay. In witness whereof the said party of the first part and second part have hereunto affixed their hands and seals. Signed Vincennes Bridge company, L. T. Oliphant, president; McCracken county, by R. T. Lightfoot, county judge."

The Contract.
"The specification call for Kosmos cement to be used, or some other cement of equal quality. However, no other can be used without the written consent of the inspector, and Bert Johnson was elected inspector by the fiscal court. Right here is an interesting story. Soon after the Vincennes Bridge company received the contract it seemed that Kosmos cement would cost 20 cents more on each barrel shipped to Paducah than any other city in the United States. However, Mr. Johnson got a call and jumped on the train and went to Vincennes, Ind., and when he returned announced he had secured the sub-contract for the Perkins' creek bridge and immediately resigned as inspector for the county."

Talking of the size of the plans, which he called blueprints, Mr. Hazell read the specifications, which called for four piers 40 inches square on the outside and 24 inches square on the inside. "And to place a steel span 125 feet long, with a concrete floor on such piers. Who ever heard of such a thing? Why, for \$1,000 the county could have hired a competent engineer to have had the work done right. Then we have a young man not over 22 years old inspecting the bridge. His name is Brooks, a relative of one of the gang (applauds). A nice, clever young man, but who does not know as much about bridge building as a hog knows of Sunday."

In closing, Mr. Hazell said that if he was elected he would see that the county commissioner did his duty, and was able to follow the county officials. He said a reliable method of auditing accounts would be established, and an examination made every month. Applause greeted Mr. Hazell's remarks frequently, and it came from the farmers and not politicians present.

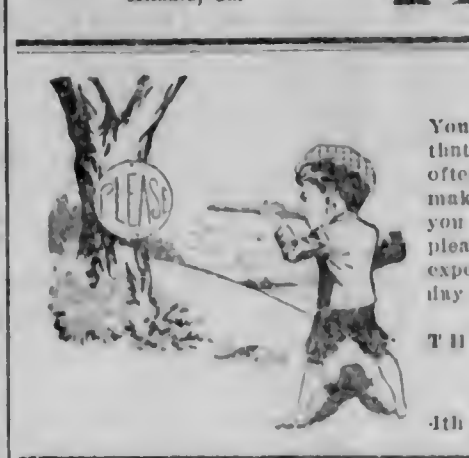

Barkerley's Speech.
Mr. Barkerley, in the course of his address, said: "Follow citizens, before I begin the argument or a discussion of the issues of this campaign, I desire to make a few remarks personal to myself. Four years ago I came before you as an entire stranger, without friends, without money and without influence. I asked you to nominate and elect me to the office of county attorney. Through your generosity and goodness I was nominated and elected to that office. I desire, now to return to you my heart-felt thanks for your support at that time and for your friendship since. I do not come before you claiming that I

am entitled by any merits or special virtues of my own to your suffrage but I am the democratic nominee for the office of county judge, and notwithstanding the criticisms of my opponent, which were to be expected as a matter of course, I want to say to you that I am not ashamed of the fact that I am the nominee of the democratic party of McCracken county for county judge and I trust that before I shall conclude my remarks you will not be ashamed of it either.

"This is your county. It is your government, the office are all yours, and you have the right to select any man whom you may desire to do those offices and also to swear allegiance to any political party with which you may agree. (Applauds.) I have nothing whatever to conceal from the people of this county. My record I shall lay bare before you and I shall expect the same fair treatment from you that you have a right to ask from me. And I shall demand from my opponent the same fair treatment which I propose to accord to him."

"I went into office believing that I was the servant of the people and not their master. I am of the same opinion yet. (Applauds.) While I realize that I, like every man, have made mistakes, I have conscientiously and honestly tried to perform the duties of my office with fairness and fidelity. I do not here tonight for the purpose of shielding any officer who has been guilty of wrongdoing whether he be a Democrat or a Republican, and if Democrats in office have done wrong I shall feel at liberty to call attention to the fact just as I did when I was in office. When I went into office the fiscal court met only two or three times a year. It had been customary for a long time for the county judge to pay claims presented against the county on account of the fact that people who had claims against the county did not desire to wait until the fiscal court met to get their money. I realized that through this method the county might some times be imposed upon and that it was my duty as the legal adviser of the fiscal court to oppose illegal claims presented through the fiscal court for payment. Therefore, I urged upon the fiscal court that all claims ought to be presented in open court and allowed and paid on record before they were paid. Also that it would be cheaper and better and safer for the fiscal court to meet once a month so that the magistrates might be familiar with the county's affairs than it was to meet two or three times a year and hold two or three day sessions. This system was adopted by the fiscal court and is now being practiced."

"So that all the claims presented against the county for allowances are brought into open court, passed through the hands of the finance committee, and are then allowed or rejected by the court as a whole."

"When I went into office I found that some of the magistrates were illegally working upon the roads of the county, while the law said that no member of the fiscal court could be directly or indirectly interested in any contract for the working of roads or furnishing materials to the county. I advised them to stop; they refused; they were afterward indicted and the circuit court held that they had a right to work upon the roads. I appealed the case to the court of appeals and they decided that they did not have that right, and this practice was thus ended."

"I further found that for a long time the county clerk through a mistaken construction of the law was being paid 25 cents out of the county's treasury for each order made in the county court, which amounted to something like \$500 or \$600 a year. The law did not justify this expenditure of the county's money. I therefore opposed the allowance of these claims and thus saved the county at least \$2,000 on this one item. I have been called upon also to oppose allowances that were presented by the sheriff, coroner, county assessor, county clerk and some of the magistrates and at all times I have never hesitated to represent the people in the fiscal court and to give them such advice as in my opinion was lawful, and to the interest of the people of the

county.

"I was also called upon in the performance of my duty to oppose an increase of \$1,200 a year in the salary of the circuit judge, on the grounds that no officer's salary could be increased during his term of office. Most of the lawyers of the city of Paducah contended that it could be done and the circuit court so decided, but when the case was appealed to the court of appeals, they decided that this increase was not legal and therefore void."

"This was not done because of any lack of appreciation of the excellent services of our circuit judge, but simply because that in my opinion it was a violation of the law."

"My opponent seeks to hold me responsible for the misconduct of William Smedley, during the last 12 or 14 years, and they are not satisfied with trying to blame me with what he has done since I have been county attorney, but they go back even to the time when I was a school boy in Hickman county, before I ever saw Paducah, or McCracken county, and want to blame me for what occurred at that time, the years before I was ever elected to an office. In reply to that I wish to say that the law does not require me to expect that the county attorney shall be the inspector of the clerk's office and even if he had been, it could not have been detected because the report of Prof. Smith shows plainly that no one but an expert could have discovered it and in many instances a manifesting fraud had to be used to detect the fraud. After this condition was made known it then became my duty to take such steps as the law described to prosecute the offender, which I did. He was indicted, he resigned his office, and now has many indictments pending against him which are to be tried in the courts. The law requires, not that the county attorney should be a detective, not that he should go around with a shotgun on his shoulder in the dead hours of midnight to keep people from committing crimes, but that after they have been detected then his duty is to prosecute them to the full extent of the law. This I have done, and shall continue to do not only in the Smedley case, but in any other case where any officer, Democrat or Republican, is found guilty of a willful misconduct in office or anywhere else."

"My opponent has charged me with being a member of a ring, and in doing so he says that this ring and clique is of such magnitude that no man can be nominated for an office in McCracken county unless he has the support of what he calls the ring. This statement is so patently false that it scarcely deserves to be dignified by an answer. During my term of office I have disagreed many times with the fiscal court and with the various county officers, and I have given such legal advice as they requested or as I felt it my duty to give. This has always been done in the spirit of friendship and of fairness. Sometimes my advice has not been taken but I have always been willing to accord to every man the right to entertain opinions as well as myself and have always realized that I am just as liable to be mistaken, both upon the law, and upon the wisdom of certain propositions as any other man, and I do not think that any man can truthfully point to a single act of mine since I have been in office that even indicated or created a suspicion that I was a member of any gang, clique or ring, either in office or out of office."

"We held a primary in this county last November for the nominations to county offices. That primary was free and open to every man, rich and poor alike who desired to make the race for any county office. A number of men of good character and reputation made the race for the various offices to be filled at this coming election. For some reason, of which I do not know, I had no opposition in the primary and was therefore nominated by over 3,600 votes of the Democrats of McCracken county, therefore no cry of unfairness or of fraud can be raised in opposition to any of the nominees of that primary, and whatever may be my future, I shall always deem it as a very great honor indeed to have been nominated for the important office of county judge of McCracken county, without an opponent."

MUCH RED TAPE IN TREASURY CHANGE

FIGURES AND HEAVY COINS

Washington, Oct. 4. (United Press.)—There is a whole lot more involved in a change in the office of treasurer of the United States than in the mere acceptance of the resignation of the retiring officer and the appointment of his successor. When President Taft accepted the resignation of Charles H. Treat, whose name appears in the bottom right-hand corner of all United States bills, and announced that Lee McClung would succeed him in November 1, it was equivalent to giving notice to all the clerks in the office of the treasurer that they had three

months' extra hard work ahead of them. This comes from the fact that before a new treasurer of the United States takes charge of the office he has got to be satisfied that all the money and trust funds held in the treasury department are there down to the very last fraction of a cent. Consequently, every dollar of the vast hoards in the treasury have got to be counted.

When the last change was made in this office it took all of the clerks, twenty additional laborers specially hired for the occasion, a committee of three appointed by the secretary, with ten or fifteen specially designated aides assigned from other offices of the department, just two months and eighteen days to do this counting and to compare the figures thus obtained with those carried up on the books.

This is not so very surprising when it is realized that the aggregate amount of money and securities which are held in the office of the treasurer reaches the stupendous total of \$1,200,283,117.51 2-3. That fraction of a part of a cent which has been carried along in the treasury books for many years arises from the interest of a Louisiana State Coupon Bond which carried 7 per cent.

All of this great wealth is held in thirteen vaults beneath the treasury department in this city. Vault No. 1 is 89 feet long, 51 feet wide and 12 feet high. It is packed to the doors with bags each holding one thousand silver dollars and contains a total of 105,000,000 silver dollars. But even this enormous amount does not represent all of the silver

cart wheels held by the treasury, there being over fifty million more stowed away in two other vaults. Gold certificates to the value of \$146,963,250; United States notes to the amount of \$66,634,652; silver certificates to the amount of \$53,289,000; gold coin to the value of \$9,469,032; national bank notes in process of redemption, worth \$20,645,203, and subsidiary silver minor coin bring the total in twelve of the vaults up to \$455,823,834. In the remaining vault, No. 7, there are bonds to the total value of which reaches the enormous figure of \$744,459,283.512-3. These are held by the treasurer as security for national bank circulation and for deposits of government departments; miscellaneous trust funds and the sinking fund of the District of Columbia.

Every item of these giant totals has to be verified before a new treasurer, who is a bonded officer, is willing to assume responsibility for the figures as to the amount of money on hand which is turned over to him by his predecessor.

It would, of course, be an interminable job to count singly the 156,574,458 silver dollars, so they are counted by weight. It is known

to a fraction of an ounce how much each bag supposed to contain 1,000 silver dollars, should weigh. So bag after bag is placed on scales by the husky colored laborers under the supervision of an officer of the treasury. If the bag is light it is opened and a count of its contents is made. Among the thousands of bags weighed it has sometimes happened that shortages to the extent of a dollar or two have been found. On one occasion a member of the colored force probably overcome by the knowledge that he was handling such vast wealth when he was only drawing \$2 a day pay, had the nerve to abstract several dollars from several bags. Altogether, he stole about \$30, but he was caught at the proceeding and not only had to disgorge but served a term in prison as well.

The silver is handled just like so many bags of wheat. Just as each one is weighed from one vault it is packed up in a pile in another. The bundles of notes before being put into the vault have been most carefully counted bill for bill and the number in each package marked on the outside of the sealed wrapper. These seals are carefully examined and if they are found unbroken the package is passed as intact. If there is the slightest abrasion of the sealing, the package is undone and the contents counted over again.

As stated, it took very nearly three months to make the count when the present treasurer, Mr. Treat, received the trust from his predecessor, Ellis M. Roberts. At that time—September 18, 1905—the amount involved was even greater than that which will pass from the custody of Mr. Treat to Mr. McClung. The transaction then was closed by the passing of the following receipt from Mr. Taft to his predecessor:

"Received from Ellis H. Roberts, retiring treasurer of the United States, government funds and securities amounting to \$1,259,598,278.58 2-3 for which receipts in triplicate have been given. September 18, 1905." The receipt also included the amount under the various descriptions of money and bonds.

STOMACH TROUBLE CURED.
To anyone suffering with stomach trouble, I will say I was afflicted with it for fifteen years. I got in such condition I had to quit work. I tried Hays' Specific, found relief and went back to work and now hold my former position. I can conscientiously recommend it for stomach trouble. March 15, 1909. L. F. DAVIS, Palmer House, Paducah, Ky.

MOTOR BOAT RACES

RESULTS OF CONTESTS IN TENNESSEE RIVER.

Magdalene C. and Stag Ran Nose and Nose Until the Finish Line Was Reached.

The results of the motor boat races given on the Tennessee river yesterday afternoon are:

FIRST RACE (1/4 mi.)—First, first; Thistle, second; Stag I, third.

SECOND RACE (1/4 mi.)—Wauk-a-beep, first; Collins C., second; Erd, third.

THIRD RACE (1/4 mi.)—Magdalene, first; Magdalene C., second; Stag II, third.

The last race proved the most interesting. The Magdalene C., and the Stag were nose and nose almost to the line when the former boat pulled in a little ahead, securing second place.

If the weather is favorable next Sunday a match race will be given. The Cutaway was chartered yesterday afternoon and could not enter in the last race. The Keen Kutter failed to enter.

Card of Thanks.

FOOTBALL

GAME WILL BE PLAYED WITH UNION UNIVERSITY.

Chess, Checker and Whist Club Team Will Go to Jackson October 23.

Union University, Jackson, Tenn., has written the Chess, Checker and Whist football team of this city asking for a game to be played there Saturday, October 23. The locals have decided to go down and give the Jackson squad a hard gridiron tussle.

The first practice of the Chess club's team was at the baseball grounds yesterday afternoon. The traction company has erected arc lights on the grounds and regular practice will be held every night this week. The first game will be Saturday when this team goes against the High school football team.

The Chess team will be some lighter this year, as several of the old timers have dropped out. Warren Sights, probably the best man on the team last year, will not be in line this year. Sam Shannon, who played with the team last year, and Jack Daly have both left the city. Leo Keller will probably play this year. Several men are "trying out" for the team and the locals will have a fast bunch in spite of the handicap. Some of the team are: Fisher, Hagby, McGinnis, McChesney, Elliott, Harbour, Shelton, Cope, Hughes, St. John.

Opening Dance.

Military Piety.

During the Civil war the late Colonel Gabe Bouek organized a regiment which he controlled as a dictator.

"I am a humble servant of the Lord," said an itinerant evangelist who had wandered into camp one day "endeavoring to save the souls of the unfortunate. I have just left the

camp of the Massachusetts, where I was instrumental in leading eight men into the paths of righteousness. "Adjutant," thundered Colonel Bouek, after a moment's pause, "detail ten men for baptism. No detail Massachusetts regiment shall beat mine for piety."—Success Magazine
